Senior Android Developer

PROFESSIONAL SUMMARY

Senior Android Developer with 10+ years of experience building high-quality native Android applications for consumer and enterprise environments. Proven track record of delivering scalable, production-ready mobile solutions across tourism, e-commerce, logistics, CRM, customer loyalty, transportation, warehousing, and business automation domains. Strong expertise in Java, Kotlin, Android SDK, Jetpack Compose, SQLite, REST API integration, Google Maps SDK, payment systems, barcode scanning, PDF processing, and socket-based communication. Experienced in owning the full application lifecycle — from requirements analysis and architecture design to development, deployment, maintenance, and continuous improvement.

CORE COMPETENCIES

- Native Android Development (Java & Kotlin)
- MVVM & Clean Architecture
- SQLite & Local Data Management
- Firebase Integration
- Barcode / QR Code Integration
- Socket Programming
- Android SDK & Jetpack Compose
- REST API Integration
- Google Maps SDK Integration
- Payment Gateway Integration
- PDF Generation & Processing
- UI/UX Implementation (Material Design)

PROFESSIONAL EXPERIENCE

Senior Android Developer (Freelance)

2016 – Present

Independent Practice · Shiraz, Iran

- Developed native Android applications for clients across tourism, e-commerce, logistics, CRM, and business automation.
- Managed the full development lifecycle from requirements gathering to deployment and long-term maintenance.
- Key projects: Begardesh (tourism platform), Zapp (online taxi), EI PDF, Tapss, Cinema Office, Hive Game.

Android Developer

Mar 2018 – Present

Karamad System (Dade Pardazi Karamad System Pooyan) · Remote

- Developed and maintained the Karamad System Android app — a comprehensive ERP-based distribution and sales platform.
- Built field-sales ordering workflows with offline support and Google Maps SDK integration for territory visits.
- Integrated SQLite local storage, secure payment gateways, fingerprint authentication, and invoice printing.

Android Developer — Begardesh

Mar 2024 – Sep 2024

Gam-haye Talaei Novavaran Ariana · Remote

- Developed the Begardesh Android app — a gamified health and urban tourism platform with step tracking and coin rewards.
- Built location-based incentive features and integrated local business advertising tools.

Android Developer

Mar 2017 – Mar 2023

Nikan Software Group · Shiraz, Iran

- Delivered enterprise-grade Android applications for accounting, visitor management, and warehouse inventory systems.
- Integrated barcode scanning for inventory workflows and Google Maps for location-based features.
- Designed SQLite-based data storage and reduced manual operational workload through digitization.

Android Developer

Mar 2019 – Sep 2024

Hekmat va Maharat Technical Institute · Shiraz, Iran

- Built a comprehensive technical reference app for engineering students and professionals.
- Delivered free educational content, professional calculators, and appliance error-code lookup tools.

Android Developer

Mar 2019 – Present

Sadr Tahviah Pars · Remote

- Ongoing Android development for HVAC-industry business applications.

Mobile Developer

Aug 2016 – Jan 2017

Medis · Shiraz, Iran

- Developed Digi Menu, a food ordering platform with mobile ordering workflows and payment processing.

Mobile Developer

May 2015 – Jul 2016

Shiraz IT · Shiraz, Iran

- Built Live Gallery and Payam Noor educational applications; implemented PDF viewing and document handling.

SELECTED PROJECTS

Begardesh	Gamified health & urban tourism app with step tracking, coin rewards, and a local business marketplace.
Karamad System	Comprehensive ERP-based distribution & sales software with field-sales ordering and route mapping.
Hekmat Technical Calculations	Engineering reference app with free educational content, calculators, and appliance error codes.
EI PDF	Image-to-PDF conversion application published on Cafe Bazaar.
MDF App	Marketplace and classifieds app for the MDF, decoration, and hardware industry.
Tapss / G-Taps	Chiller management and gas-leak/quality/vacuum testing apps connected to hardware gauges.
Abanet Bar	On-demand freight and cargo transport application.
Hive Game	Number-guessing logic puzzle game with no repeated digits and no leading zero.

TECHNICAL SKILLS

Languages	Java, Kotlin
Mobile Development	Native Android, Android SDK, Jetpack Compose, Material Design
Architecture	MVVM, Clean Architecture, RESTful APIs, Dependency Injection, State Management
Databases	SQLite, MySQL, Microsoft SQL Server
Tools & Platforms	Git, Firebase, Google Maps SDK, Android Studio, VS Code, Trello

Additional Expertise

Payment Gateway Integration, Barcode/QR Integration, PDF Processing, Socket Programming, Performance Optimization

EDUCATION

B.Sc. in Computer Engineering — Software

2015 – 2018

Islamic Azad University, Estahban Branch · Iran

- GPA: 17/20

Associate Degree in Computer Software

2013 – 2015

Islamic Azad University · Iran

LANGUAGES

Persian — Native | English — Professional Working Proficiency
